

Bologna 2016

21/03/2016 - 24/03/2016

Bolonha - Itália

The Bologna fair is a world moment for book rights sales targeted to the children and adolescents, illustrations and a diversity of product licenses. We will have a collective stand where our editors will present novelties of their catalogues. There will also be a relationship activity. We will repeat the matchmaking activity in Bologna. The assessment of the previous fair and the validation of the activities by the Management Committee are important.
