

# Buyer Project – Office Paper Brasil Escolar 2015 (stationery)

10/08/2015 - 13/08/2015

São Paulo - Brasil

It consists of business rounds in Brazil between foreign buyers and Brazilian exporting entrepreneurs. The advantage of this kind of action is that the Brazilian entrepreneur does not need to go abroad to do business. Another advantage is that the Buyer Project allows the foreign buyer to know the production structure of Brazilian companies, collaborating with the creation of more commercial links between the exporter and the importer.

I WANT TO PARTICIPATE
