

Seminar on Investment Opportunities in the Brazilian Metal Mechanic Sector

09/07/2015 - 09/07/2015

Milão - Itália

The events aims at presenting investment opportunities in Brazil to potential Italian investors at the Brazil Pavillion at Expo Milano 2015. The event will focus the metallurgy and machinery industries, not only due to the relevance of the italian industry in this segment and the existence of supply chain gaps in Brazil, but also to provide a vision of the investment environment in Brazil, the governmental initiatives and also other opportunities in various sectors, specially infrastructure.
