

I.U.L.T.C.S. – International Union of Leather Technologists and Chemists Societies

24/11/2015 - 27/11/2015

Novo Hamburgo - RS

Scientific and technical works are presented in the IULTCS congresses, reflecting the state of art of the leather manufacturing technology in the world, including besides physicochemical and production engineering processes, technologies related to environment preservation. The expectation is to have a variety of up to a hundred technical and scientific works presented.

I WANT TO PARTICIPATE
