

Projeto Comprador Setor Metal Mecânico

18/03/2017 - 21/03/2017

Lages - SC

Projeto Comprador organizes visits by international buyers from companies in the metal and mechanical industries, including infrastructure, oil and gas, power, mining and steel. The buyers participate in networking sessions with local companies and schedule visits to their factories to learn about their products. Consulting services are also provided to adapt projects to the target markets.
