

Roadshow EUA

08/03/2017 - 09/03/2017

Los Angeles - Estados Unidos

At Roadshow USA, production companies and their top directors screen their best projects to prominent creative professionals and the production team of an international agency. This way, in addition to exhibiting their work, they also have the opportunity to explain the creative solutions developed by each specific director. The event focuses on sales prospecting in the audiovisual industry.
