06/04/2017 - 09/04/2017

São Paulo - SP

The most important art fair in Latin America, Art-SP is the longest-running contemporary and modern art fair in Brazil and has become increasingly international, hosting some of the most important art galleries in the world. The event also welcomes over 2,000 artists from Brazil and around the world. Given its size and because it brings together artists and opinion makers, as well as publishing houses and magazines, the fair consolidates market trends.
