COSMOPROF NORTH AMERICA 2017

09/07/2017 - 11/07/2017

Las Vegas - Estados Unidos

Americans are the top global consumers and opinion makers in this industry. CosmoProf is the only trade show organized exclusively for industry buyers and importers. It is not open to industry professionals or the general public, unlike other events held in the country, which are primarily regional and aim to sell products. That is to say, the event is an extremely interesting opportunity, but only for established companies that operate in the US market.

I WANT TO PARTICIPATE
