

Roadshow USA

09/03/2016 - 10/03/2016

Los Angeles - Estados Unidos

The model remains the same as the previous edition of 2015: the producers will participate with their main directors and their best works to a screening session for the main creative people and the production team of an international agency. Besides the exhibition of the work itself, there's an explanation about creative solutions suggested by a specific director.

I WANT TO PARTICIPATE
