

Anpic

28/10/2016 - 30/10/2016

Leon - Mexico

The trade show is one of the most important in the Americas for machine, equipment, fashion and technology in the leather and footwear industries and is the third largest in the world. Organized by APIMEX (the Mexican Association of Industrial Suppliers), ANPIC is known for its dynamic atmosphere and for being responsible for a high number of contacts and business deals. The industry is characteristically conservative domestically when compared to similar industries in Brazil.

I WANT TO PARTICIPATE
