

Expogenética 2016

20/08/2016 - 28/08/2016

Uberaba - MG

Expogenética, a major event for the genetics sector, brings together samples of the most prominent zebu breeds in the country. The event includes auctions, livestock markets, technical lectures and debates, direct livestock sales and socio-educational activities. For this buying project, guests will visit farms and see how raw materials, seeds and machinery can help them with their production.

I WANT TO PARTICIPATE
