

Ecuador Mission

09/03/2017 - 10/03/2017

Quito - Equador

This action strives to make Brazilian manufacturers of electrical, electronic and similar devices, more accessible to Ecuadorian buyers. Each participating Brazilian company will give a technical seminar to the local companies. (The target audience should have a technical background.) After the seminars, there will be networking sessions and business meetings organized by matchmaking consultants.

I WANT TO PARTICIPATE
