

Projeto Comprador - SETOR METAL MECÂNICO

18/05/2017 - 21/05/2017

Belo Horizonte e Maringá - MG

The Buyer Product organizes visits by international buyers from companies in the metalworking industries, including infrastructure, oil and gas, power, mining and steel manufacturing. The buyers participate in networking sessions with local companies and schedule visits to their facilities to learn about their products. Consulting services are also provided to adapt projects to the target markets.

I WANT TO PARTICIPATE
